

# PECANS

## Math Lesson Plan 4

**Suggested Grade Level 1-2**

**Objective:** Students will demonstrate the ability to study shapes and match like objects.

**Materials Provided:** None

**Materials Needed:** Unshelled mixed nuts (can be found in bins or bags in the produce section of the grocery store, especially around the holidays), cans of shelled mixed nuts

**Activity:**

Allow students to study shelled and unshelled mixed nuts. Then have students try to match each shelled nut with the unshelled nut of the same variety. Remove the shells of the unshelled nuts to verify.
